*WINTER MEMORIES	
<p>"When I was growing up I enjoyed listening to the great songs and arrangements played during the Christmas season. Those arrangements, written years earlier in the 1940's and 50's, had a particular sound of the period. Later, as a music student, the major 6th chord was demonstrated and explained during a music theory class. I immediately recognized it as the sound I associated with many of those holiday arrangements.</p> <p>I wrote <i>Winter Memories</i> using the major 6th chord's sound as a key tonal element. I tried to create melodies and rhythms that might inspire mental associations and warm feelings we have when we listen to old familiar seasonal songs from our childhood."</p>
